

EAI Endorsed Transactions on Creative Technologies

Editor-in-Chief

Matei Mancas, University of Mons, Belgium

Matei MANCAS has an Audiovisual Systems and Networks engineering degree (Ir.) from ESIGETEL Engineering School, France, and a MSc. degree in Information Processing from the University of Paris XI (Orsay). He holds a PhD in applied sciences from the Engineering Faculty of Mons (FPMs), Belgium since 2007. He made several research visits abroad as in La Sapienza University in Rome, Italy and IRISA-INRIA in Rennes, France.

He is now a senior researcher and project leader at the Numediart Institute of the University of Mons, the institute of new media arts technologies where he acquired several years of experience with different projects involving together engineers, artists and people from creative industries. Matei is the organizer of several meetings of EU IP and COST projects and TPC and PC member of several conferences. He is also a member of the Management and Steering Committee of a COST Action and he is a representative of the researchers in the Board of Directors of the University of Mons.

Matei's research is about Smart Rooms and more precisely the analysis and modeling of human attention with applications to creative industries like TV, web and advertising.
