1 Introduction

In the normal transfer of information through language, we use it to send vital social messages about who we are, where we come from, and who we associate with. In several occasions, some words can be extensively clean or no limit or forbidden to say and there is some of them are believed to be dirty or harm to say that it can give a negative meaning to the addressee. It is often shocking to realize how extensively we may use to judge and person's background, character, and intentions based simply upon the person's language, dialect, or in some instance even the choice of a single word. The taboo word cannot be separated in our daily life that without realizing it. It is widely used in many language contacts. These unique tools are used by many different backgrounds of people in their daily conversation. This certain words in all societies are considered as taboo in that they are not to be used especially in polite situation. It clearly shows that because of the strong emotion carried by the word taboo, it cannot mostly say in every situation. In certain societies, these words used in some circumstances, that refer to the activities that are forbidden or to be avoided. Words relating to

sex, sex organs, religious connotation and others often used by many people to give vent to strong emotion. These certain words are considered as Taboo. The functions are to draw attention to oneself, to show contempt, to be aggressive or provocative, and to mock authority. The uses of taboo in daily conversation are varied and to be closely related to the acts that prohibited or avoided to do. For example, words carried religious connotation or offending the God, holy book and else are considered profane if it is used outside the ceremonies. Especially for us in Asian culture are not permitted to use taboo word in daily conversation.

Moreover, the existence of taboo word can be found in various sources such as in the movie, song lyric, etc. especially in the movie, the existence is caused by the fact that the characters need to express a strong feeling and emotion by the word taboo. It is uttered to shows anger, frustration, express friendliness, familiarity, and etc. For instance, the sentence "hey you cunt" the word cunt means "friend". Usually, it is uttered by people to call their close friend or their close family member, but the word above can also mean the derogatory term for a woman in other circumstances. Some latest related studies that concerned with this present study, such as [1] a research study entitled "The Use of Taboo Words in Pak Darto Character in *Tendangan Dari Langit* Movie" showed that it was found 10 utterances containing Javanese taboo words by Pak Darto. The writer found that Pak Darto used 5 types of taboo words to express his feelings, they are one's mother in law, bodily function/human genitals term, death, excretion and creating game/animal. Furthermore, Pak Darto only had 4 purposes in using the taboo words, namely to discredit, to provoke violent confrontation, to an endearment and to provide catharsis. Anggita's research [2] entitled "A Sociolinguistic Analysis of Taboo Words in *Bad Teacher* Movie" showed that there were four types of taboo words found in the movie. They were obscenity, profanity, vulgarity, and epithet. In addition, the characters in *Bad Teacher* movie employed taboo words for four functions in their utterances. They were to draw attention to oneself, to show contempt, to be provocative, and to mock authority. Furthermore, [3] the similar study conducted entitled "An Analysis of Taboo Words in *Wild Child* Movie", showed results that firstly, there are five forms of abusive language in this movie, they are: animal terms of abuse, sexist terms of abuse, racist terms of abuse, homophobic terms of abuse, and intellect- based terms of abuse. Secondly, the difference between the use of taboo words by the British and Americans in this movie is just on the expression, British people prefer to use straightforward words or meaningful corresponding original words, while Americans prefer to use words figuratively although, it does not distinguish intensity all the rage. i.g. the American people prefer to use the figurative language just like gross, horridious cow, horse face, dweep, and excellent shreck. However, British prefer to use straightforward like nightclub, dogs, Vermin, slutty, whore-y, and rotting pig's vomit. Thus, this study aims to identify and classify the types and the function of taboo words in the *Crank High Voltage* movie script since there are many characters frequently used taboo words as their conversation so that the utterances are analyzed. In addition, the characters come from bad educational background as the story begins on the street gang setting.
