Cahyadi	HeyLaw Indonesia

Technical Program Committee

Fira Rahma Dwi Aryani	HeyLaw Indonesia
Hanif Helmi Kaunang	HeyLaw Indonesia
Caroline MK	HeyLaw Indonesia
M. Aliframadhan	HeyLaw Indonesia
Ismi Azhari Karima	HeyLaw Indonesia
Jevina Aprilianti	HeyLaw Indonesia

Preface

Welcome to the First International Proceedings on Ethics and Legal Compliance: The Future of Artificial Intelligence Law, Cybersecurity, and Data Privacy Protection Law, organized as part of the Indonesia Cyber Law Conference. This conference serves as an international forum designed to embrace perspectives from legal technology experts worldwide, with the aim of strengthening the foundation of law and digital technology development in Indonesia. Our future is unfolding within the rapidly evolving revolution of artificial intelligence, bringing forth inevitable challenges and opportunities.

The Indonesia Cyber Law Conference is convened to explore and discuss critical issues such as artificial intelligence regulation, cybersecurity, and data privacy protection, which play an increasingly vital role in our daily lives. As a nation advancing in the utilization of digital technology, Indonesia needs to confront and respond to both the positive and negative impacts of artificial intelligence. This conference is not merely a space for discussion but also a concrete step towards understanding and addressing the challenges presented by technological advancements. The two main themes of this conference, namely "law and digital technology," reflect the complexity of the relationship between the legal world and the rapidly advancing technological landscape. The presence of artificial intelligence creates new dynamics in society, economy, and politics.

Therefore, discussions on regulation, ethics, and legal compliance are highly relevant and crucial for forming a strong foundation to navigate these changes. We extend our sincere gratitude to the two keynote speakers, Prof. Dr. Henk G. Addink and Prof. Dr. Kai Liu, who have graciously agreed to share their knowledge and experiences at this conference. May their presentations provide profound insights to all participants. The contributions from the authors who participated in the Call for Paper, totaling 75 articles, are tangible evidence of the desire to contribute to the collective understanding of the relationship between law and digital technology. We believe that the outcomes of this conference, which will be printed in the international proceedings, will be a valuable contribution to shaping policies for the development of law and digital technology in Indonesia. Finally, we express our gratitude to all parties who have contributed to the organization of the Indonesia Cyber Law Conference. May this conference not only be a learning moment but also a significant milestone in formulating the direction of the future of law and digital technology in Indonesia. Enjoy the conference and may our collective involvement help build a solid foundation to navigate the dynamic technological future.

Contents

E-Commerce Transaction Problematics In Online Sale And Purchase Contracts <i>Sri Astutik, Dudik Djaja Sidarta, Subekti Subekti, Suyatno Ladiqi, Ayu Lilian Ningrum</i>	1
