

# **Proceedings of the EAI 3<sup>rd</sup> International Conference on Intelligent Systems and Machine Learning**

January 5-6, 2024, Pune, India

*ICISML 2024*

## **General Chairs and Co-Chairs**

Dr. Sachi Nandan Mohanty, VIT-AP University, Andhra Pradesh, India

Prof. Ming Yang, Kennesaw State University, GA, USA

Rachna Y. Sable, GHRCEM, Pune, India

Mousmi Ajay Chaurasia, Muffakham Jah College of Engg. & Tech. Hyderabad, India

## **Technical Programme Chairs and Co-Chairs**

Muhammad Ijaz Khan, Beijing University, China

Tanupriya Choudhury, Graphic Era Hill University, Dehradun, India

Dr. Sachi Nandan Mohanty, Professor, Singhidunum University, Serbia

Nilmadhab Mishra, GHRCEM, Pune, India

Suneeta Satpathy, SOA Deemed to be University, Bhubaneswar, Odisha, India

# Conference Organization

## Organizing Committee

### General Chair

Dr.Sachi Nandan Mohanty	VIT-AP University, Andhra Pradesh, India
Prof. Ming Yang	Kennesaw State University, GA, USA

### General Co-Chairs

Rachna Y. Sable	GHRCEM, Pune, India
Mousmi Ajay Chaurasia	Muffakham Jah College of Engg. & Tech. Hyderabad, India

### TPC Chair and Co-Chair

Muhammad Ijaz Khan	Beijing University, China
Tanupriya Choudhury	Graphic Era Hill University, Dehradun, India
Dr. Sachi Nandan Mohanty	Professor, Singhidunum University, Serbia
Nilmadhab Mishra	GHRCEM, Pune, India
Suneeta Satpathy	SOA Deemed to be University, Bhubaneswar, Odisha, India

### Sponsorship and Exhibit Chair

Vijay Rathod	GHRCEM, Pune, India
A Pramod Kumar	Mallareddy Engineering College (Autonomous), Hyderabad, India

### Local Chair

Vaishali Y. Baviskar	GHRCEM, Pune, India
----------------------	---------------------

### Workshops Chair

Jyoti Deshmukh	GHRCEM, Pune, India
Monika Mangla	Dwaradas J Sanghvi College of Engineering Mumbai, India

### Publicity & Social Media Chair

Bhagyashri Wankar	GHRCEM, Pune, India
Shweta Sankhwar	Maitreyi College, University of Delhi, India
Puranam Revanth Kumar	ICFAI Foundation for Higher Education, Hyderabad, India

### Publications Chair

Radha Shirbhate	GHRCEM, Pune, India
Deepa Jose	KCG College of Technology, Chennai, India
Nonita Sharma	IGDTUW, New Delhi, India

### Web Chair

Yogesh Mali	GHRCEM, Pune, India
yagnesh Challagundla	VIT-AP University, India

### Posters and PhD Track Chair

Deepti Sharma	GHRCEM, Pune, India
Princy Randhawa	Manipal University, Jaipur, India
Nidhi Agarwal	Galgotias University, Greater Noida, UP, India

### Panels Chair

Pranita Mokal	GHRCEM, Pune, India
Megha Bhushan	DIT University, Dehradun, India

### Demos Chair

Sakharam Kolpe	GHRCEM, Pune, India
----------------	---------------------

### Tutorials Chairs

Masira Kulkarni	GHRCEM, Pune, India
Priya Gupta	ABVSME, JNU New Delhi, India

### **Technical Program Committee**

Sanjay Misra, Covenant University, Nigeria

Milos Stojmenovic, Singidunum University, Serbia

Georgios Tsaramirsis, University of Wollongong in Dubai Knowledge Park, Dubai, UAE

Sven Groppe, University of Lübeck, Germany

Mohammad Yamin, Abdulaziz University, Jeddah, Saudi Arabia

Mukesh Misra, Massey University, New Zealand

Neha Mohanty, New Jersey Institute of Technology, USA

Jinghua Groppe, University of Lübeck, Germany

Abdulrhman Alshareef, King Abdulaziz University, UAE

Gourav Gupta, Massey University, Palmerston North, New Zealand

Lal Hussain, University of Jazad Ammu and Kashmir

María Avilés, Gijon Hospital, Asturias, Spain

Laxmidhar Behera, Indian Institute of Technology Mandi, Himachal Pradesh, India

Santunu Choudhury, IIT Jodhpur, Rajasthan, India

Durga Prasad Mohapatro, NIT Rourkela, Odisha, India

Debasis Samanta, IIT Kharagpur, WB, India

Izzat Al-Darraj, University of Baghdad, Iraq

## Preface

This book contains the proceedings of the 3rd International Conference on Intelligent System and Machine Learning, which was held in a hybrid form on January 3-4, 2024. 3rd International Conference on Intelligent Systems and Machine Learning (ICISML-2024) is a premier conference that focuses on the latest advances and emerging technologies in the field of intelligent systems and machine learning. As intelligent systems and machine learning continue to grow and evolve, they have become crucial tools for analyzing and understanding large volumes of data that humans may not be able to comprehend on their own. These technologies allow machines to learn from their mistakes and perform tasks similar to those done by humans, enabling the discovery of insights and patterns in data that can help inform decision-making and drive progress in a variety of fields. The conference aims to bring together researchers, practitioners, and industry experts to share their knowledge and experiences, and to discuss the latest developments and challenges in this rapidly growing field.

The conference has four different technical tracks: Track 1: Image Recognition, Track 2: Machine Learning, Track 3: Intelligent Systems and Machine Learning Applications, and Track 4: Intelligent Communications Networks. The technical programme also featured four keynote talks and one technical workshop. The title of the technical workshops organised in collaboration with the software industry, “CORTEVA Agriscience,” has the theme “Sequences to Satellites: Applications of Artificial Intelligence and Machine Learning in the Agriculture Domain.” The average number of papers per reviewer was three. Around 192 technical experts participated in the review process from across the globe. Three experts in various fields reviewed each paper. A technical programme committee member finally took the decision and communicated it to the authors as per reviewer reports.

Coordination with the general chair, Prof. Ming Cheng, Kennesaw State University, GA, USA, was essential for the success of the conference. We sincerely appreciate their constant support and guidance. It was also a great pleasure to work with such an excellent organising committee team and we appreciate their hard work in organising and supporting the conference. We strongly believe that the ICISML 2024 conference provided a good forum for all researchers, developers, and practitioners to discuss all application aspects of science and technology that are relevant to smart grids. We also expect that future ICISML conferences will be as successful and stimulating as indicated by the contributions presented in this volume.

Dr. Sachi Nandan Mohanty  
Dr.Ming Cheng

# Contents

## Security and Privacy

Quality Optimization of Live Surveillance Video With Crime and Anomaly Identification 1

*Deepika Ajalkar, Masira Kulkarni, Akshay Popale, Abhishek Mahindrakar, Ashish Meshram, Prabal Khillarkar*

Risk Management in the Financial Sector: An Artificial Intelligence-Based System for Fraud Detection 17

*Avadhoot Ukirde, Pratham Gaikwad, Sarthak Shinde, Amruta Hingmire*

## Machine Learning in Health Care

Lung Cancer Diagnosis using a light weight deep learning model 33

*Mohit Agarwal, Vivek Mehta, Rohit Kr Kaliyar, Suneet Kumar Gupta*

## Communications and Networking

Strategic Renewable Energy Source Integration for Charging Stations in Plugin Hybrid Electric Vehicle Networks 47

*Abdussalam Ali Ahmed, Abdulgader Alsharif, Mohammed Khaleel, Yassar F. Nassar, Adel Obelaid, Subhashree Choudhury, Ankit Bhatt, Mohit Bajaj*

Integrating Renewable Energy Sources with Electric Vehicle Infrastructure for Enhanced Renewability 59

*Abdussalam Ali Ahmed, Abdulgader Alsharif, Mohammed Khaleel, Yassar F. Nassar, Adel Obelaid, Mohit Bajaj, Ankit Bhatt, Subhashree Choudhury*

OccupEye -Building Traffic and Animal Monitoring System 71

*Gopi Manohar Reddy T, Sai Sanjana Reddy M, Koumudi Reddy K, Rupesh Sai Narendra K, Srinivasa Reddy K*

## Machine Learning Applications

Stock Market Predictions Using Moving Average and LSTM Techniques 83

*Nareshsarathy S, Aadhya Enllawar*

A Refactoring Advisor for Enhanced Cloned Software: Based on Several Machine Learning Techniques 96

*Badri Narayanan K, Sreeja Nukarapu, Devatha Krishna Sai, Bharath Reddy Gudibandi*

Unveiling the Power of Infrared with Adaptive MSDE and MRCS a Multi-Resolution Approach 106

*Koppala Vianney Xavier, Viha Jaiswal, Kankanala Srinivas*

Lattice Reduction Using K-Means Algorithm 118

*Shaurya Pratap Singh, Brijesh Kumar Chaurasia*
