## Preface

We are delighted to introduce the proceedings of the seventh edition of the International Colloquium on Interdisciplinary Islamic Studies (ICIIS) in conjunction with the sixth Annual Postgraduates Conference on Muslim Society (APCoMS). This conference has brought together academicians, researchers, practitioners, and students to present their research findings to global experts. The conference's theme is "Responses of Religion and Education Towards Artificial Intelligence and Climate Change".

The technical program of ICIIS and APCoMS consisted of 70 full papers, including four invited papers in oral presentation sessions at the main conference tracks. The conference tracks were Track 1: Social Sciences, Track 2: Education and Psychology, Track 3: Science, and Track 4: Religion and Islamic Studies. In addition to the high-quality technical paper presentations, the technical program also featured six keynote speeches.

The six keynote speakers were Prof. Asep Saepudin Jahar, MA., Ph.D., from Syarif Hidayatullah State Islamic University of Jakarta, Indonesia; Prof. Dr. H. Mujiburrahman, MA, from Antasari State Islamic University of Banjarmasin, Indonesia; Prof. Stephan Dobson from Central Queensland University, Australia; Prof. Philip Buckley from McGill University, Canada; and Datin Prof. Raihanah Binti Hj. Abdullah from Universitas Malaysia; and Prof. Dr. H. Khoiruddin Nasution, MA, from Sunan Kalijaga State Islamic University.

Coordination with the steering chair, Prof. Dr. Zulkifli, M.A., was essential for the conference's success. We sincerely appreciate their constant support and guidance. It was also a great pleasure to work with such an excellent organizing committee team for their hard work organizing and supporting the conference. In particular, the Technical Program Committee is led by our TPC Co-Chairs, Dr. Siti Umami Masruroh, M.Sc., and Prof. Dr. Imam Subchi, M.A., who have completed the peer-review process of technical papers and made a high-quality technical program. We are also grateful to the conference managers, Dewi Aprilia Ningrum, M.A., for their support and all the authors who submitted their papers to the ICIIS and APCoMS 2024 conferences and workshops.

The ICIIS and APCoMS 2024 conferences provide a good forum for all researchers, developers, and practitioners to discuss all religions, education, science, and technology in an inclusive and sustainable world. We also expect that the future ICIIS and APCoMS 2024 conferences will be as successful and stimulating as indicated by the contributions presented in this volume.

**Prof. Dr. Zulkifli, M.A**
